**SAFETY RECALL NOTICE**

Dear «Owner\_name»:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2008 - 2010 Keystone Cougar and Laredo Fifth Wheels with the slide out bike/storage rack option with a 16" spare tire mounted on the rack. As a result, Keystone RV is conducting a safety recall. We apologize for any inconvenience this action may cause you; however your safety and continued satisfaction are of the utmost importance to us.

***Reason for this recall***

It has been decided that Keystone RV Company has experienced a limited number failures with its spare tire carriers on certain Keystone brand trailers and fifth wheels. In particular, the spare tire carriers, when combined with a 16" spare tire and when installed on the bumper of a slide out bike/storage rack, may break or crack after time causing the spare tire to fall off. If the tire carrier fails causing the tire to come loose, there is an increased risk of personal injury and property damage. The subject brand trailers and fifth wheels affected were manufactured from 2008 through February 5, 2010.

***What we will do***
